Lawn and Garden Domestic Pesticide Dispenser Training

All Alberta sales outlets selling Domestic Class Lawn and Garden Pesticides must employ a Certified Pesticide Dispenser. Lawn and Garden Domestic Pesticide Dispenser Certification ensures that consumers have access to correct information regarding pest control and that someone at each retail outlet has knowledge of pesticide sales regulations and safety requirements. Certificate holders will not be pest control experts, but will be familiar with pesticides, pesticide safety, provincial regulations and provincial reference materials.

Three ways to get your certification

We offer a tutorial, a home study course or custom on-site tutorials.

Tutorial

You can write the Lawn and Garden Domestic Pesticide Dispenser exam with confidence after attending this one-day tutorial! Spend the day with an Olds College instructor or industry expert studying pesticide labels; pest control and management; and legislation and safety requirements. The certification exam is written at the end of the tutorial.

It is strongly recommended that you review the Lawn and Garden Domestic Pesticide Dispenser Manual prior to attending the tutorial. The Lawn and Garden Domestic Pesticide Dispenser Manual will be mailed to individuals registering a minimum of 2 weeks prior to the tutorial. Bring the Manual with you to the tutorial. For registrations received less than 2 weeks prior to the course, the Lawn and Garden Domestic Pesticide Dispenser Manual will be given out at the tutorial.
