

Bachelor of Applied Science - Landscape Management

Four Year Degree

Do what you love... Love what you do... Do what you love... Love what you do... Do what you love... Love what you do... Do what you love...

DESIGN YOUR FUTURE

From residences to parks and large commercial landscapes, the Bachelor of Applied Science - Landscape Management major prepares you for success. Develop and acquire the business and technical skills that together foster success in the landscape industry. Develop a gratifying career and distinguish yourself by earning an Applied Degree in Landscape Management.

Program Description

An Applied Degree with the Landscape Management major brings together the strengths of both academic and workplace learning. Students in the degree develop the knowledge and skills that have been identified as being crucially important for success in the landscape industry. Building upon competencies developed at the diploma level, students will increase their abilities for managing design, construction, and maintenance projects. They'll also be trained to find, understand and implement relevant technical and scientific information and learn to effectively manage human, financial and physical resources. Outstanding facilities in the form of a botanic garden, plus state of the art laboratories combine to give students a competitive advantage. Let the Landscape Management major prepare you for a dynamic career at the front in managing the landscape.

The Bachelor of Applied Science degree is comprised of one year of academic study followed by a year of Directed Field Study (DFS) in industry. This program blends learning in the classroom with the advantages of learning on the job. The Introduction to Self Directed Learning course assists the student to develop a clearly defined learning plan that becomes the foundation of the Directed Field Study.

Acceptance into the Bachelor of Applied Science program is dependent upon minimum prior completion of a two-year diploma in Horticulture.

COLLEGE**

Career Opportunities

The Landscape Management major prepares students for careers in residential, commercial, and urban development. This rapidly expanding industry has positions available as:

- Landscape Designer ➤
- Landscape Construction Supervisor ➤
- Landscape Maintenance Manager ➤
- Parks and Recreation Supervisors ➤
- Urban Foresters ➤
- Marketing and sales representatives to the landscape industry ➤

The program also prepares students for self employment should they wish to pursue a new venture.

Admission Requirements

Applicants must have the following:

- a) A Horticulture Diploma or,
- b) A Degree in a closely related area.

➤ A minimum of four months work experience in landscaping. Some applicants may receive credit for competencies acquired through previous academic training and/or work experience. Such accreditation will be given only after a complete assessment of prior learning experiences.

➤ Accepted applicants wishing to apply for Advanced Standing, and/or evaluation of experiential learning, may do so through the Olds College Prior Learning Assessment & Recognition Policy.
